

Pure Water Cleaning Machines

✓ Commercial/Domestic Use

- Capacity: 250 litres
- Fill-time (based on 50psi mains pressure): 4 hours
- Work-time: 4 hours
- Empty Weight: 58kg
- Full Weight: 308kg
- Footprint (including bracket): 62 x 85cms
- Height: 82cms
- Maximum Operators: 2
- Pumps: 1
- DI vessels: 1
- Pre-filters: 1
- RO Membranes: 1
- RO Housing: Stainless Steel
- Auto-shut off when full
- Water Type: Soft to Hard

E-Compact 250RO - Van or Trailer Mounted.

Designed to fit all compact vans and trailers, the Brodex E-Compact 250 litre Reverse Osmosis System is part of the latest generation of window cleaning equipment. Built for professional window cleaners from high-impact polypropylene, with quality components throughout. A great entry-level system for beginners, particularly suited to domestic or light commercial use.

This model produces Pure Water using Reverse Osmosis to removes 95% of impurities (particularly suitable for hard water areas) then de-ionising resin removes the remaining contaminants, enabling perfect cleaning, drying to a streak-free finish without the use of detergents. Although a higher initial cost, the RO has significantly lower running costs than the DI, due to greatly increased resin-life - often as much as 20 times. So, even in soft water areas, it is better value in the long run.

- Uses a vertical resin system, which is 80% more efficient than horizontal resin vessels
- Allows for 2 operators at once, thus increasing your profits.

Summary: Built-for-purpose. Fast and easy to use, with low running-costs and very fast 'pay-back'. Our Trade-In option makes investing in this system one of the best decisions you will ever make.

- Why go anywhere else?

With RO systems we cannot overstate the importance of regular flushing of the membranes (as per the manual procedure) for at least 2 hours a week. Lack of flushing is the main cause of blocked membranes and increased resin consumption.

100% Safety Record

Our systems are securely mounted, using our steel Tanksafe Bracket, to and *through* the floor to the chassis of your vehicle for absolute safety. We always recommend that you install a steel bulkhead for the safety of driver and passenger in the event of a head-on collision.

Frost Advice:

Avoid letting your system freeze, as this may cause expensive damage, resulting in items needing replacement.

Brodex Benefits:

- Very low maintenance
- Negligible running costs
- Easy to use
- Lifetime customer support service
- Free demonstration
- Try-before-you-buy

We give you a supply of promotional leaflets for your customers, to ease the transition from ladders to WFP.
